

NATURE'S WALKAWAY

THE FUTURE OF FOOD PREP FLOOR CLEANING

A biologically based floor cleaner, with application specific combination of bacteria, enzymes.

NATURE'S WALKAWAY will eliminate all grease, oils, fats and other soils, and leave your prep area slip free. No dirty mops or hazardous chemicals needed. Just a clean, wet mop and a deck brush. It has the added benefit of keeping your drains open and sweet smelling, with no gnats and flies, because the fats and grease around the drains will be eliminated, and your grout will restore to its original color.

Safe for users and the environment.

No caustic or hazardous or acidic components.

Safe on all floors not damaged by water.

Extremely cost effective.

— HOW TO APPLY —

- 1) Sweep floor to pick up any loose debris
- 2) Mix 1 quart of Walkaway with 4 gallons of tap water, or one pint of Walkaway to 2 gallons depending on area size
- 3) Starting at the far point and working toward exit, apply liberally with a clean wet mop. Then use a deck brush to go over the worst soiled areas, This will accelerate the cleaning process. Leave surfaces wet. It will dry completely and be thoroughly clean in eight hours or less.

NOTE: Product can be reduced to 6 oz. per gallon after 30 days.
